

Tamper Alarm Alert: Motion Detector Activation

Attention Security Team,

Just now the tamper alarm on the motion detector in the vault area was activated, triggering a silent alarm. In response to this event, the security bot was dispatched to investigate and document the current state of the room.

Please review these images carefully to assess the situation and determine if any further action is necessary. If you observe any suspicious activity or unauthorised individuals in the vault area, please proceed with caution and follow the established security protocols.

If additional support or assistance is required, do not hesitate to contact the security team immediately.

Thank you for your attention to this matter.

Below are the images captured by the security bot upon arrival at the vault:
